

Trees are an integral part of Onalaska's Character, history, and infrastructure. The City maintains over 7,000 publicly-owned tree with more planted every year. All trees located within the City Right-of-Way area (see right), are owned by the City of Onalaska. The City is the **only** entity that may conduct removal activities. The City is committed to protecting this resource through education, tree preservation, routine maintenance, annual planting, design standards, enforcement and working with the public.
