EROSION CONTROL	STORM WATER MANAGEMENT
(a) Permittee shall notify the City Engineer or designee 48 hours prior to commencing any land disturbing construction activity. (b) Permittee shall notify the City Engineer or designee of practice installation within 5 days of installation. (c) Permittee shall obtain permission in writing from the City Engineer or designee prior to any modification pursuant to 15-2-7(3) of the erosion and sediment control plan. (d) Permittee shall install all practices as identified in the approved erosion and sediment control plan. (e) Permittee shall maintain all road drainage systems, stormwater drainage systems, BMPs and other facilities identified in the erosion and sediment control plan. (f) Permittee shall repair any siltation or erosion damage to adjoining surfaces and drainage ways resulting from land disturbing construction activities and document repairs in a site erosion control log. Remove accumulated sediment from downstream culverts, storm sewers, and other drainage facilities. (g) Permittee shall inspect the practices within 24 hours after each rain of 0.5 inches or more which results in runoff during active construction periods, and at least once each week, make needed repairs and document the findings of the inspections in a site erosion control log with the date of inspection, the name of the person conducting the inspection, and a description of the present phase of the construction at the site. (h) Permittee shall allow the City Engineer or designee to enter the site for the purpose of inspecting compliance with the erosion and sediment control plan or for performing any work necessary to bring the site into compliance with the control plan. Permittee shall keep a copy of the erosion and sediment control plan at the construction site.	(a) All stormwater management measures shall be installed in accordance with the approved stormwater management plan and this permit. (b) The City Engineer or designee shall be notified at least 3 business days before commencing any work in conjunction with the stormwater management plan, and within 3 business days upon completion of the stormwater management practices. (c) Practice installations shall be certified "as built" by a licensed professional engineer. Completed stormwater management practices must pass a final inspection by the City Engineer or its designee to determine if they are in accordance with the approved stormwater management plan and ordinance. (d) The City Engineer or designee shall be notified of any significant proposed modifications to an approved stormwater management plan. (e) All stormwater management practices shall be maintained in accordance with the stormwater management plan until the practices either become the responsibility of the City of Onalaska, or are transferred to subsequent private owners as specified in the approved maintenance agreement. (f) The City of Onalaska is authorized to perform any work or operations necessary to bring stormwater management measures into conformance with the approved stormwater management plan, and consent to a special assessment or charge against the property as authorized under sub.ch. VII of ch. 66, Wis. Stats., or to charging such costs against the financial guarantee posted under Ordinance 6-5-10. (g) If so directed by the City Engineer or designee, all damage to adjoining facilities and drainage ways caused by runoff, where shall be repaired at the permittee's expense. (h) Access is permitted to the City Engineer or its designee for the purpose of inspecting the property for compliance with the approved stormwater management plan and this permit.

Note: Erosion Control Permits issued under this section shall be valid for a period of 1 year for commercial sites and 2 years for residential sites or the length of the building permit or other construction authorizations, whichever is longer, from the date of issuance. The City Engineer may extend the period one or more times for up to an additional 180 days. The City Engineer may require additional BMPs as a condition of the extension if they are necessary.
