Onalaska Knox Home Box Program:

In an effort to reduce property damage and provide a better service during a medical or other emergency, the Onalaska Fire Department has created 2 Knox Box programs for our citizens. These security boxes are on hundreds of properties in the City of Onalaska. The fire trucks have 1 key secured in each fire truck that is used to open all of our boxes. You simply receive your box, hang it over the door or mount it by the main entry door. Then you contact the fire department and we will lock your key securely in the box. If you have a medical or other emergency, we can open the Knox box and enter your home without damaging your property trying to break in.

Option 1 Loaner box: You or a family member can fill out a form on the City of Onalaska website @ <https://cityofonalaska.com/fire> . Additional information is available on our website about the Knox Box system. This program was created for short term use of a loaner box after a surgery or event that may require quick access into a property vs. damaging a door to gain entry.

Option 2 Purchasing a Knox Home Box:

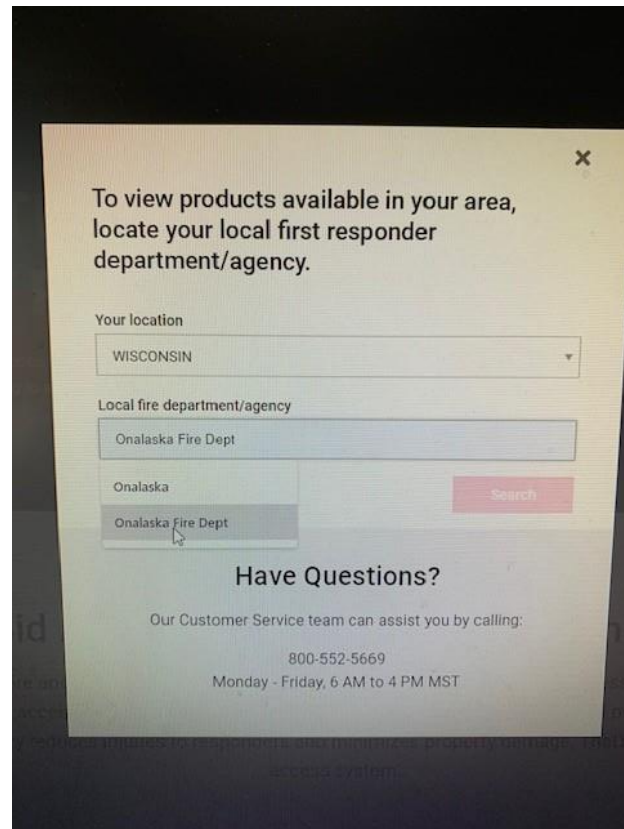

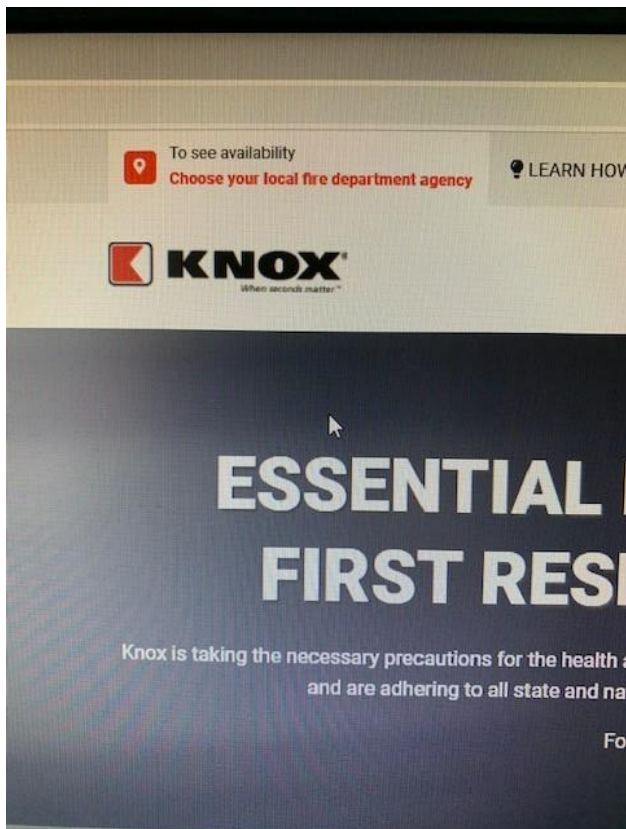

If you chose to order a Knox Box for your home or a family member, we have step by step instructions below. This option will allow you to select from 3 colors and the mounting style you would like. If you have any questions about this program please call us at (608)781-9546.

Respectfully,

Troy Gudie (Fire Chief)
