ARTICLE III - ASSOCIATION ACTIVITIES

3.1 - **Association Activities.** No employee shall engage in any Association internal problems not directly concerned with Association and City relations with any other employee during work hours. Reasonable amounts of time spent in grievances with the employer during working hours on or off the premises will not be deducted from wages of the authorized employee Association representatives involved, however, all grievance meetings outside the third (3rd) step in the grievance procedure shall be handled outside of the regular working hours. It is further agreed that any such time spent in grievance resolution shall not result in overtime wages.

3.2 **No Strike Agreement.** The Association agrees for itself and its members that there shall be no picketing, strikes, sympathetic strikes, organized work slowdowns or sit-downs for any reason whatsoever, and the City agrees that there shall be no lockout during the life of this Agreement, it being the mutual desire of both parties hereto to provide for uninterrupted and continuous service. Employees violating this section of this Article shall be subject to immediate discharge.

APPENDIX II

DRUG AND ALCOHOL TESTING POLICY

Purpose

The purpose of this policy is to assist in the prevention of accidents and injuries resulting from the misuse of alcohol and/or drugs by all City employees; including but not limited to, drivers of commercial motor vehicles. This policy is intended to be consistent with and in compliance with the U.S. Department of Transportation and the Federal Motor Carrier Safety Administration (FMCSA) drug and alcohol testing rules, regulations and procedures contained in Title 49 C.F.R. and the Drug Free Workplace Act of 1988.

Statement of Policy

The City of Onalaska is committed to protecting the safety, health and wellbeing of all employees and recognizes that drug and alcohol abuse poses a significant threat to the goals of the City. Employee involvement with alcohol and other drugs can be very disruptive, adversely affect the quality of work and performance of employees, pose serious health risks to users and others, and have a negative impact on productivity and morale. The City has established a drug-free workplace program that balances the respect for individuals with the need to maintain a drug and alcohol free environment.

The contact for any questions regarding this policy is: Human Resources, 415 Main St. Onalaska, WI 54650, (608) 781-9530 ext. 203.

Reporting of Drug Conviction

As required by the Drug Free Workplace Act, Public Law 100-690, Title V, Subtitle D, all City employees are hereby notified that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance, alcohol or drug paraphernalia is strictly prohibited in the workplace. Furthermore, this law makes it a condition of employment that all City employees abide by the Drug and Alcohol Free Workplace Policy and notify *in writing* the City Human Resources Department of any criminal drug statute conviction for a violation occurring in the workplace no later than five (5) days after such conviction. Employees who fail to comply with this requirement or any other provision of this regulation will be subject to disciplinary action up to and including discharge. Appropriate action, which may consist of discipline up to and including termination, will be taken within 30 days of notification.

Prevention and Rehabilitation

The goals of this policy are prevention and rehabilitation whenever possible, rather than discipline or termination. The City encourages employees who have an alcohol or other drug problem to seek help to deal with their problem. Help is available through the City's Employee Assistant Program (EAP). For more details on this program, contact the Human Resources Department or the EAP office at 775-4780 or toll free at (800) 327-9991.

Employees who admit to alcohol misuse or controlled substances use are not subject to the referral, evaluation and treatment requirements of parts 40 and 382, provided that:

1. The employee does not self-identify in order to avoid drug or alcohol testing;
2. The employee makes the admission of alcohol misuse or controlled substance use prior to performing work.

Leave of Absence Prior to Testing

An employee may be permitted to take a leave of absence to participate in an approved treatment program for alcoholism or drug use. The leave of absence must be requested prior to the commission of any act subject to disciplinary action. An employee requesting such a leave of absence must use any paid benefit time prior to using unpaid leave and must comply with any requirements of FMLA.

Employees requesting to return to work from a leave of absence for drug or alcohol treatment may be

required to submit to tests without prior notice if the City has reasonable belief based upon objective evidence that testing is necessary to address safety concerns in the workplace during the six months following the employees return to work.

A positive test result or a refusal to submit to testing will subject the employee to discharge.

Prohibited Conduct for all City Employees

1. As required by the Drug Free Workplace Act, all City employees are strictly prohibited from using, possessing, manufacturing, distributing, or dispensing controlled substances and/or alcohol while on City property, or operating City equipment or vehicles.
2. City employees are prohibited from reporting for or remaining on duty or performing assigned job duties while under the influence of alcohol or a controlled substance.
3. City employees are prohibited from deliberately misusing this policy in regard to subordinates, as well as providing false information in connection with a test, or falsifying test results through tampering, contamination, adulteration or substitution.

Drug and Alcohol Testing

Participation in the City's Drug and Alcohol Testing program is a requirement of each employee and therefore, is a condition of employment. Refusal by a City employee to take a required drug and/or alcohol test will result in the removal of that employee from the employee's assignment(s) which, in turn, may result in discipline up to and including discharge.

1. Testing will be conducted in the following situations for all City employees:

Pre-Employment – Any individual not currently employed by the City who is applying for any position shall be required to undergo drug and alcohol testing after a conditional offer of employment has been made.

Reasonable Suspicion Testing – In cases in which an employee is acting in an abnormal manner or appears unfit to perform his/her duties in a safe manner and a supervisor or department head who has been trained in accordance with this policy and D.O.T. requirements Section 382.603 has reasonable suspicion to believe the employee is under the influence of alcohol or drugs, the employee shall be taken to a properly authorized testing facility for alcohol and drug testing. Reasonable suspicion means suspicion based on specific, contemporaneous, articulable observations concerning the appearance, behavior, speech or body odors of an employee. These observations may include indications of the chronic and withdrawal effects of controlled substances. The supervisor or department head who makes the determination that reasonable suspicion exists to conduct an alcohol test shall not conduct the alcohol test of the employee.

Alcohol testing is only authorized if observations are made during, just preceding or just after the period of the work day that the employee is required to be in compliance. However, City policy requires that reasonable suspicion alcohol testing shall be performed at any time during an employee's work day.

The employee will not be permitted to perform work until: (1) an alcohol test is administered and the alcohol concentration measures less than 0.02; or (2) 24 hours have elapsed following the determination that there was reasonable suspicion to test the employee. However, City policy requires that an employee will not be returned to work until confirmed test results are obtained.

Once the employee has been removed from the job site, the supervisor is to contact their department head and the Human Resources Department. If contact cannot be made at that time, the supervisor or department head is to proceed through the next step of this procedure and make contact with them as

soon as possible.

The supervisor or department head is to then take the employee to the collection site for drug and alcohol testing, and to wait there until the test is completed.

If the alcohol test is conducted more than two (2) hours, but less than eight (8) hours, after the supervisor or department head makes such reasonable suspicion determination, the supervisor or department head must complete a report explaining the reasons for the delay in conducting the alcohol test.

If the alcohol test is not conducted within eight (8) hours after the supervisor or department head makes such reasonable suspicion determination, the supervisor or department head must cease attempts to administer an alcohol test and shall state in the record the reasons for not administering the test. In addition, the driver will be out of service for 24 hours.

Once the drug and alcohol testing has been completed, the supervisor or department head is to make arrangements for the employee to be taken home. The employee will **not** be permitted to drive his/her own vehicle home at that time. The employee may have a family member or a friend take them home; the supervisor or department head may, but is neither required nor encouraged to drive the employee home under this policy. It is suggested that the supervisor or department head stay with employee until transportation arrives. The supervisor or department head shall document whether he/she stayed with the employee, whether the supervisor or department head provided transportation home and if not, the name of the individual providing such transportation, and the time that the supervisor released the employee.

The employee will be advised not to report for work. The City will contact the employee once the test results are known (this normally takes 24 - 48 hours), and a decision has been made as to the employee's status.

The results of the drug or alcohol testing will be sent directly to the Human Resources Department. When the results are obtained, the employee's supervisor and/or department head will meet with the Human Resources Department to determine the appropriate course of action to be taken.

This is a confidential process. Test results will be held strictly confidential and are not to be discussed or shared with anyone without a legitimate need to know. Likewise, a supervisor must not discuss the suspected reason for a referral, discipline action or termination with anyone without a legitimate need to know.

Once the test has been completed and the employee has been taken home, the supervisor or department head must submit a written report to the Human Resources Department outlining, in detail, what happened and the behavior observed that led the supervisor or department head to believe the employee was under the influence of alcohol and/or drugs. This report must be done within 24 hours of the testing.

Return-to-Duty/Follow-up Testing - The City of Onalaska will ensure that before an employee returns to duty the employee shall undergo a return-to-duty alcohol and/or drug test with a result indicating an alcohol concentration of less than 0.02 and a verified negative result for drug use. In any event, an employee will not be allowed to return to duty without first having been evaluated by the City of Onalaska EAP provider in order to determine the employee's fitness-for-duty. Such follow-up

actively may be required if an employee has engaged in conduct prohibited by City policy as noted above. The employee shall comply with all recommendations of the EAP. The employee shall provide an authorization for release of information will be needed to verify EAP participation and compliance with recommendations.

Test Refusal

The following behavior constitutes a test refusal for drugs and alcohol (382.107):

1. Failure to appear for the test in the time frame specified by the City of Onalaska, with the exception of pre-employment.
2. Failure to remain at the testing site until the testing process is completed. However, if an employee leaves a pre-employment testing site before the process starts, it is not deemed to be a test refusal.
3. Failure to provide a urine specimen, saliva or breath specimen, as applicable. However, an employee who does not provide a specimen because they have left the testing site before the process starts for a pre-employment test is not deemed to be a test refusal.
4. Failure to provide a sufficient volume of urine or breath without a valid medical explanation for the failure.
5. Failure to undergo a medical examination as part of the verification process. In the case of a pre-employment drug test, the test is deemed to be a refusal only if the pre-employment test is conducted following a contingent offer of employment.
6. Failure to cooperate with any part of the testing process.
7. Failure to permit the observation or monitoring of specimen donation when so required.
8. Failure to take a second test as required by the City of Onalaska or collector.
9. Possess or wear a prosthetic or other device that could be used to interfere with the collection process.
10. A drug test result that is verified by the MRO as adulterated or substituted (applicable to drug test only).

Refusals to test are listed in 49 CFR Part 40, as amended, or 40 CFR 40.191, as amended, for drug tests and 49 CFR 40.261, as amended, for breath tests. A copy of 49 CFR Part 40 is available upon request.

Drug and Alcohol Testing Procedures

The City of Onalaska will use a drug and alcohol collection site that meets the standards established in 49 CFR Part 40 and a laboratory that is certified by the U.S. Department of Health and Human Services (DHHS). All drug and alcohol testing will be conducted in conformance with the procedures and rules established by the federal Omnibus Transportation Employee Testing Act of 1991 and its implementing regulations.

1. **Alcohol Testing** - Employees will be required to submit to breath testing using a National Highway Traffic Safety Administration (NHTSA) approved evidential breath testing (EBT) or a non-evidential alcohol screen device (ASD) using breath or saliva. A state-certified Breath Alcohol Technician (BAT) will administer an initial screening test. If the employee tests positive for alcohol, then the BAT will conduct a confirmation test. The City will take action based only upon the positive results of the confirmation test, 0.04 percent or greater. All procedures and steps used in conducting both the initial and confirmation tests will be performed in conformance with the federal law and federal regulations.
 - a. **Preparation for breath alcohol testing** - The following procedures summarize the procedures established by the Federal Motor Carrier Safety Administration (FMCSA) regulations implementing drug and alcohol testing under the federal law. These procedures

are binding and are subject to change in the event the FMCSA or other government agency changes the regulations on drug and alcohol testing of employees in safety-sensitive positions.

1. When the employee enters the collection site, the BAT will require him or her to provide positive identification (i.e. photo I.D. or employer identification.)
2. The BAT will explain the test procedure to the employee.
3. Employees will be required to complete and sign various forms used to document the testing process. Refusal to sign the test form(s) will be regarded as refusal to take the test, and the City will be notified immediately.
4. The screening test will be conducted. The BAT will open an individually sealed, disposable mouthpiece in the view of the employee and attach it to the EBT. The BAT will instruct the employee to blow forcefully into the mouthpiece for at least six (6) seconds or until an adequate amount of breath has been obtained. Following the test, the BAT will show the employee the test results.
5. If a saliva alcohol screen device (ASD) is utilized, a qualified Screen Test Technician (STT) will open the package in the presence of the employee, and instruct the employee to insert it into their mouth until it becomes saturated with saliva. Upon removal of the device from the mouth, the STT will ensure the test was activated and read the results displayed to the employee within 15 minutes of the test. If the test was not completed, one reattempt will be administered. If the reattempt is not successful, the employee will be directed to take a new test immediately, utilizing an EBT. A saliva alcohol screen device may only be utilized as a screening test.
6. If the screening test is a breath alcohol concentration of less than 0.02, no further testing is required and the BAT will report the test to the employer as a negative.
7. If the screening test is a breath alcohol concentration greater than 0.02, a confirmation test must be performed. The confirmation test will be conducted 20 minutes after the completion of the screening test, employing the same procedure as using an EBT. . . During the period the employee must not eat, drink, belch, or put any object or substance into his/her mouth.
8. If the initial and confirmatory test results are different, the confirmation test result is deemed to be the final result. The employee will be instructed to sign the certification statement on step 4 of the ATF. It is *not* a test refusal if the employee refuses to sign. The test results will be confidentially transmitted to the City immediately so the employee can be removed from the safety-sensitive function. If the alcohol test is positive, arrangements will be made to transport the employee from the collection site.
9. In situations where the City has been informed that an employee has not provided a sufficient amount of breath to permit a valid breath test, they will be directed to obtain, within 5 days, an evaluation from a licensed physician acceptable to the City, who has expertise in the medical issues raised by failing to provide enough breath.
10. If the employee's behavior constitutes a test refusal, the test will be terminated and the City will be notified of the refusal immediately. Test refusal will subject the employee to discipline, up to and including discharge. The following behaviors constitute an alcohol test refusal: failure to appear for the test within the designated time frame, failure to remain at the testing site until the process is complete, failure to attempt to provide a specimen, failure to provide sufficient breath with no valid medical explanation, failure to undergo a medical examination associated with insufficient volume procedures, failure to sign the certification on step 2 of the ATF, and failure to cooperate with the collection process..
11. Cancelled tests (as defined in Part 40.267) must be reported to the City within 48 hours, and the employee will be treated as if the test never occurred. A retest following a

cancelled test is only allowed for a return-to-duty or follow-up test; otherwise a retest is strictly prohibited.

- b. Blood Alcohol Testing – Blood alcohol testing is authorized only in the following circumstances:
1. When policy rules require a reasonable suspicion test and an EBT is not readily available for either a screening or confirmation test, or if there is an EBT available only for a screening test.
 2. When an employee attempts and fails to provide an adequate amount of breath, blood alcohol testing may be used for both screening and confirmation test purposes.

Upon the conclusive finding of a positive (0.04 percent or greater) blood alcohol test results, the employee has 72 hours in which to request a test of the split specimen. An employee who fails to notify the Medical Review Officer (MRO) within 72 hours of receiving the results of a positive test of the employee's desire to have the split specimen tested, shall be deemed to have waived their right to seek testing of the split specimen.

Pending receipt of the result of the analysis of the split specimen, the employee shall not return to work unless the employee has met conditions set forth in this policy following a test result of 0.04 percent or greater.

All blood alcohol testing will be conducted in conformance with the procedures established by the Federal Regulations.

2. Results of Positive Test – Any employee who tests positive for alcohol concentration of 0.02 or higher is subject to discipline, up to and including termination. If a confirmation alcohol test measures 0.04 or greater, the City of Onalaska is required to:

1. Remove the employee from their position;
2. Before returning the employee to employment:
 - a. refer the employee to the City of Onalaska's EAP for assessment of an alcohol problem and a determination of whether participation in a treatment program is necessary and;
 - b. obtain verification from a substance abuse professional that the employee has complied with any required rehabilitation or treatment program and;
 - c. re-test within three (3) days of returning to work to verify that the employee's alcohol concentration is below 0.02.
 - d. The employee will enter a Last Chance Agreement with the City outlining the conditions of the Last Chance Agreement and the responsibilities of the employee which may include, but are not limited to: consent for follow up testing, abstaining from all drug/alcohol use during work, refraining from bringing drug/alcohol paraphernalia on City property, and having no further policy violations.

If the confirmation test level is between 0.02 and 0.39 percent, the employee will be removed from their position for a minimum of 24 hours following the administration of the test.

In the event that an employee is required to comply with breath testing as a result of a law enforcement investigation, the employee must submit to the examination. The test will be considered enforceable for purposes of this policy, if the testing officer is a qualified BAT and the EBT that was used for the test has been certified by the State of Wisconsin or a local law enforcement agency.

3. Testing for Controlled Substances – For the purpose of this policy and the Federal Regulations, the City of Onalaska will utilize a seven panel drug screen consisting of the following drugs:

- Tetrahydrocannabinol (Marijuana drug)
 - Cocaine
 - Amphetamines
 - Opiates (including heroin)
 - Phencyclidine (PCP)
 - Barbiturates
 - Benzodiazepines
- } DOT Panel
- } Non-DOT Panel

In instances where there is reason to believe an employee is abusing a substance other than the seven drugs listed above, the City reserves the right to test for additional drugs under the City's own authority using standard laboratory testing protocol.

Drug testing is conducted by analyzing an employee's urine specimen, through a certified testing lab and monitored by the (DHHS). This procedure will include use of a split specimen testing procedure. Each urine specimen is subdivided into two bottles labeled as a "primary" and a "split" specimen. Both bottles will be sent to a certified lab. Only the "primary" specimen bottle is opened and used for the urinalysis. The split specimen bottle will remain sealed and is stored at the lab. If the analysis of the primary specimen confirms the presence of illegal, controlled substances, the employee has 72 hours to request the split specimen be retested at the same lab or be sent, at the employee's expense, to another certified laboratory for analysis. An employee who fails to notify the Medical Review Officer (MRO) within 72 hours of receiving the results of the positive test of the employee's desire to have the split specimen tested, shall be deemed to have waived their right to seek testing of the split specimen.

a. **Preparation for Drug Testing** – The following procedures summarize the procedures established by the Federal Motor Carrier Safety Administration (FMCSA) regulations implementing drug testing under the federal law. In addition, employees will be asked to remove any hats and/or heavy bulky clothing. The collector also can request that the employee empty their pockets, if any bulky items are noted. These procedures are subject to change in the event the FMCSA or other government agency changes the regulations on drug and alcohol testing of employees in safety-sensitive positions.

1. Employees are to report to the collection site within the designated time frame after receiving notification. Refusal to report for collection within the time frame or non-cooperation with the collection process will be considered a test refusal.
2. When the employee enters the collection site, the employee will be required to provide positive identification (i.e. photo I.D. or employer identification). The collector will explain the basic collection procedures to the employee and show them the written instructions on the back of the Custody and Control Form (CCF).
3. In the event both drug and alcohol tests are required, the alcohol test should be conducted first, if possible.
4. Outer garments must be checked and pocket contents displayed to the collection site personnel. Any unacceptable items will be secured with the employee's other belongings. Employees have the right to retain their wallet and obtain a receipt for their belongings.
5. The employee will be instructed to rinse and dry their hands and obtain (or observe the collector obtaining) a wrapped specimen container and break (or watch the collector break) the seal on the collection container.
6. The employee will be instructed to provide at least 45 ml of urine under the split sample method of collection. This will be done in a specifically designated "donor" bathroom. The

toilet is not to be flushed. The specimen should be returned to the collector as soon as possible.

7. If an insufficient amount of urine is provided, the original specimen will be discarded and the employee will be given up to 3 hours and allowed to consume not more than 40 ounces of fluids to provide another specimen. The specimen may not be tampered with or substituted, and will be visually inspected for unusual color and sediment. The temperature of the specimen will be measured and must fall within an acceptable range. The employee will be required to provide another specimen under direct observation if the temperature falls outside the acceptable range, if the drug test result indicates that the employee's specimen was invalid, the collector notices any signs of adulteration, substitution or tampering with the specimen, the original positive, adulterated or substituted result was cancelled because the test of the split specimen could not be performed or the MRO reported the specimen as negative and dilute and directs the City to conduct a recollection. The City may also direct a collection under direct observation if the test is return-to-duty or follow-up test. Any reason requiring a direct observation test will be fully explained to the employee. Refusal to cooperate with the request for a new collection under direct observation will be deemed a test refusal.
8. If the employee is still unable to provide the required specimen, the test will be discontinued and Human Resources will be notified. Human Resources will then notify the Medical Review Officer (MRO) and the employee will be referred to a medical evaluation to determine whether the employee's ability to provide a specimen is genuine or constitutes a refusal to submit to a drug test.
9. Once the sample is collected and given to the collection personnel, the collector will break the seal on the specimen bottles and shall divide the sample into a primary specimen (30ml) and a split specimen (15ml) and seal and label them in front of the employee. The employee will then be instructed to initial the labels to verify the specimen
10. Step 5 of the Custody and Control Form (CCF) must be completed by the employee. At this time the employee may also wish to indicate on the back of their copy of the CCF any medications that are currently being used, in the event the Medical Review Officer (MRO) contacts the employee to discuss the results of the test. Refusal to sign the form does not constitute a refusal to test, but will be noted by the collector in the remarks section of the CCF
11. The collector will complete their portion of the CCF and place the specimen bottles and copy one of the CCF inside a leak-resistant plastic pouch in front of the employee.
12. The test results will be confidentially transmitted from the laboratory to the MRO in a timely manner. The MRO will then contact the employee and/or City representative (if necessary) per Part 40.131.
13. If the test result of the primary specimen is positive, the employee may request within 72 hours of receiving the positive test results, that the MRO direct that the split specimen be tested in the same or a different DHHS certified laboratory for presence of the drug(s) for which a positive result was obtained in the test of the primary specimen.
14. Once the City is notified by the MRO of a verified positive, positive dilute, adulterated, or substituted test result, the City must immediately remove the employee from the safety-sensitive job duties and cannot return the employee to safety-sensitive duty until they have successfully completed the return-to-duty process. The employee will also be removed from the position pending the result of the test of the split specimen.
15. If the result of the test of the split specimen fails to reconfirm the presence of the drug(s) or drug metabolite(s) found in the primary specimen, the MRO shall cancel the test.
16. The employee will be directed to provide another specimen immediately if the City is notified of a cancelled test result for a pre-employment, return-to-duty or follow-up test.

17. In situations where an employee does not provide enough specimen they will be directed to obtain, within 5 days, an evaluation from a licensed physician acceptable to the MRO, who has expertise in the medical issues raised by failing to provide enough specimen.
 18. Employees will be required to complete and sign various forms used to document the testing and chain of custody process. Refusal to sign the test form(s) will be regarded as a refusal to take the test.
 19. Refusal by an employee to complete and sign the test and chain of custody forms, to provide an adequate amount of urine (to be decided on a case-by-case basis) or otherwise failure to cooperate with the testing process in a way that prevents the completion of the test will be considered grounds for disciplinary action, up to and including termination.
 20. In the event of conflicting results between the initial test and the confirmation test, the confirmation test results will determine the outcome of the test.
4. Results of a Positive Alcohol or Drug Test - Any employee who tests positive for drugs or for alcohol concentration of 0.02 or higher is subject to discipline, up to and including termination. As with an alcohol misuse violation, the City of Onalaska is required to act upon a positive drug test result in the following manner:
1. Remove the employee from their position. If the removal is the result of a positive drug test, the removal will only take place after the employee has been allowed to meet or speak with a MRO in order to determine that the positive drug test did not result from the authorized use of a controlled substance;
 2. Prior to the employee's return to work:
 - a. The employee will be referred the employee to the City of Onalaska's EAP for assessment of an alcohol problem and a determination of whether participation in a treatment program is necessary OR for assessment and subsequent compliance with a recommended rehabilitation after a determination that a drug problem exists;
 - b. Obtain verification from a substance abuse professional that the employee has complied with any required rehabilitation or treatment program;
 - c. Employee must be evaluated by a substance abuse professional or MRO and determined to be fit to return to work prior to their release of the employee;
 - d. Retest to verify a negative result on a drug test or that the employee's alcohol concentration is below 0.02.
 - e. The employee will enter a Last Chance Agreement with the City outlining the conditions of the Last Chance Agreement and the responsibilities of the employee which may include but are not limited to: consent for follow up testing, abstaining from all drug/alcohol use during work, refraining from bringing drug/alcohol paraphernalia on City property, and having no further policy violations
 3. Employee must have a negative result on a return-to-duty drug test. Follow-up testing to monitor the employee's continued abstinence from drug use will be required if the employee is determined as needing rehabilitation as specified by the EAP and/or Outpatient Counselor to whom the employee is referred by the EAP.
 4. For purposes of determining drug test results, a diluted test result shall be considered a positive test result.

If the confirmation test level is between 0.02 and 0.039 percent, the employee will be removed from the safety-sensitive position for a minimum of 24 hours following administration of the test.

In the event that an employee is required to comply with breath or saliva testing as a result of a law enforcement investigation, the employee must submit to the examination. The test will be considered enforceable for purposes of this policy, if the testing officer is a qualified BAT and the EBT that was used for the test has been certified by the State of Wisconsin or a local law enforcement agency.

Prescription Drugs

Before performing work-related duties, employees must notify their supervisor if they are taking any legally prescribed medication, therapeutic drug, or any non-prescription drug which contains any measurable amount of alcohol or which carries a warning label that indicated the employee's mental functioning, motor skills, or judgment may be adversely affected by the use of this medication. A written report of this notification is to be filed by the supervisor with Human Resources. It is the responsibility of the employee to inform his/her physician of the type of work that the employee performs in order that the physician may determine if the prescribed substance could interfere with the safe and effective performance of the employee's duties or operation of City equipment. However, as required by the Federal Regulations, any employee who uses or possesses medication containing alcohol while on duty or who tests positive for alcohol will be removed from his/her position, and be subject to the alcohol provisions of this policy, even though the reason for the positive alcohol test is the fact that the employee's prescription or non-prescription medication contains alcohol.

A legally prescribed drug is one where the employee has a prescription or other written approval from a physician for the use of the drug in the course of medical treatment. The prescription must include the patient's name, the name of the substance, quantity/amount to be taken, and the period of authorization. The misuse or abuse of legal drugs while performing City business is prohibited by City policy.

Requirements for Agencies Receiving Federal Funds:

Under the Drug-Free Workplace Act of 1988 as amended, any City agency with a Federal contract of \$25,000 or more, or that receives funds through Federal grants must report to the granting Federal agency the name of any employee who is convicted of a criminal drug offense that takes place in the workplace. The report must be made to the Federal agency issuing the contract or grant within ten (10) calendar days after receiving notice of the conviction. Contractors and grantees who fail to report a conviction may be subject to one or more of the following sanctions:

1. Suspension of payments under the grant;
2. Suspension or termination of the grant; and
3. Suspension or debarment of the grantee from grants for a maximum period of five (5) years.

City agencies that have Federal contracts or grants are encouraged to contact the issuing Federal agency about reporting requirements under the Drug-Free Workplace Act.

Confidentiality of Records

The City respects the confidentiality and privacy right of all of its employees. Accordingly, the results of any test administered under this Policy and the identity of any employee participating in the City's EAP or other assessment or treatment program will not be revealed by the City to anyone except as required by law. The City will release any employee's records as directed by the express written consent of the employee authorizing release to an identified person. In addition, the City will ensure that any lab or agency used to conduct testing under this Policy will maintain the confidentiality of employee test records.

However, the lab or testing agency will disclose information related to a positive drug or alcohol test of any individual to the City of Onalaska's designee. The City may disclose this information to the employee or to the decision maker in a lawsuit, grievance, or other proceeding by or on behalf of the individual

which arises from any action taken in response to a positive drug or alcohol test; or as required by law, including court orders or subpoenas.

The Medical Review Officer (MRO) will not reveal individual test results to anyone except the City of Onalaska's designee, unless the MRO has been presented with a written authorization from the tested employee. The MRO may reveal to the City of Onalaska's designee relevant information as to whether the employee is qualified to perform safety-sensitive functions or whether the employee has tested positive for alcohol or a controlled substance. The City may disclose this information to the employee or to the decision maker in a lawsuit, grievance or other proceeding on behalf of the individual which arises from any action taken in response to a positive drug or alcohol test; or as required by law, including court orders and subpoenas; or upon the tested employee's written authorization and consent.

All records related to drug and alcohol tests of individual employees will be maintained in individual files separate from the employee's personnel file. These records will be stored in a locked cabinet and access will only be allowed to those City employees who have a legitimate need to review the records of a particular employee.

Definitions

1. **Adulterated Specimen:** A specimen that contains a substance that is not expected to be present in human urine, or contains a substance expected to be present but is at a concentration so high that it is not consistent with human urine.
2. **Alcohol Concentration:** The alcohol in a volume of breath expressed in terms of grams of alcohol per 210 liters of breath as indicated by a breath test under this part.
3. **Alcohol Confirmation Test:** A subsequent test using an EBT, following a screening test with a result of 0.02 or greater, that provides quantitative data about the alcohol concentration.
4. **Alcohol Screening Device (ASD):** A breath or saliva device, other than an EBT, that is approved by the National Highway Traffic Safety Administration (NHTSA) and placed on a conforming products list (CPL) for such devices.
5. **Alcohol Screening Test:** An analytical procedure to determine whether an employee may have a prohibited concentration of alcohol in a breath or saliva specimen.
6. **Breath Alcohol Technician (BAT):** An individual who instructs and assists individuals in the alcohol testing process and operates an EBT.
7. **Cancelled Test:** A drug or alcohol test that has a problem identified that cannot be or has not been corrected, or which this part otherwise requires to be cancelled. A cancelled test is neither a positive nor a negative test.
8. **Chain of Custody (CCF):** The procedure used to document the handling of the urine specimen from the time the employee gives the specimen to the collector until the specimen is destroyed. This procedure uses the Federal Drug Testing Custody and Control Form (CCF).
9. **Confirmation (or Confirmatory) Test:** In drug testing, a second analytical procedure to identify the presence of a specific drug or metabolite that is independent of the screening test and that uses a different technique and chemical principle from that of the screening test to ensure reliability and accuracy. In alcohol testing, a second test, following a screening test with a result of 0.02 or greater, which provides quantitative data of alcohol concentration.
10. **Confirmation Validity Test:** A second test performed on a urine specimen to further support a validity test result.
11. **Confirmed Drug Test:** A confirmation test result received by an MRO from a laboratory.
12. **Consortium/Third Party Administrator (C/TPA):** A service agent who provides or coordinates the provision of a variety of drug and alcohol testing services to employers. C/TPAs typically perform administrative tasks concerning the operation of the employers' drug and alcohol testing programs. This term includes, but is not limited to, groups of employers who join together to administer, as a

single entity, the DOT drug and alcohol testing programs of its members. C/TPAs are not "employers" for purposes of this part.

13. **Designated Employer Representative (DER):** An employee authorized by the employer to take immediate action(s) to remove employees from duties, or cause employees to be removed from these covered duties, and to make required decisions in the testing and evaluation processes. The DER also receives test results and other communications for the employer, consistent with the requirements of 49 CFR Part 40. Service agents cannot act as DERs.
14. **Dilute Specimen:** A specimen with creatinine and specific gravity values that are lower than expected for human urine. A dilute test will be reported as positive or negative. For a positive dilute test the employer treats the result as a positive test and removes the employee from safety-sensitive duty. For a negative dilute test, the employer may require, as a matter of policy, employees to retest without direct observation. The second test is the test of record, even if the second test is also negative dilute.
15. **Drug Metabolite:** The specific substance produced when the human body metabolizes a given prohibited drug as it passes through the body and is excreted in urine.
16. **Drug Test:** The laboratory analysis of a urine specimen collected in accordance with 49 CFR Part 40 and analyzed in a Department of Health and Human Services (DHHS) approved laboratory.
17. **Evidential Breath Testing Device (EBT):** An EBT approved by the National Traffic Safety Administration (NHTSA) for the evidential testing of breath and placed on NHTSA's Conforming Products List of Evidential Breath Measurement Devices (CPL).
18. **Invalid Drug Test:** The result of a drug test for a urine specimen that contains an unidentified adulterant or an unidentified interfering substance, has abnormal physical characteristics, or has an endogenous substance at an abnormal concentration that prevents the laboratory from completing or obtaining a valid drug test result.
19. **Initial Validity Test:** The first test used to determine if a specimen is adulterated, diluted, or substituted.
20. **Medical Review Officer (MRO):** A person who is a licensed physician and is responsible for receiving and reviewing laboratory results generated by an employer's drug testing program and evaluating medical explanations for certain drug test results.
21. **Negative Test Result:** Drug test with a verified presence of the identified drug or its metabolite below the minimum levels specified in 49 CFR Part 40, as amended. An alcohol concentration of less than 0.02 BAC is a negative test result.
22. **Non-negative Test:** Test result found to be adulterated, substitute, invalid or positive for drug/drug metabolites. Non-negative results are considered a positive test or refusal to test if MRO cannot determine legitimate medical explanation.
23. **Performing (a safety sensitive function):** A covered employee is considered to be performing a safety-sensitive function and includes any period in which he or she is actually performing, ready to perform, or immediately available to perform such functions.
24. **Positive Test:** Drug test with a verified presence of the identified drug or its metabolite at or above the minimum levels specified in 49 CFR Part 40, as amended. A positive alcohol test result means a confirmed alcohol concentration of 0.04 BAC, or greater.
25. **Post-Accident Test:** A drug test administered to an employee when an accident (as previously defined) has occurred and the employee performed a safety-sensitive function that either contributed to the accident, or cannot be completely discounted as a contributing factor in the accident.
26. **Primary Specimen:** In drug testing, the urine specimen bottle that is opened and tested by a primary laboratory to determine whether the employee has a drug or drug metabolite in their system; and for the purpose of validity testing. The primary specimen is distinguished from the split specimen, defined in this section.
27. **Pre-Employment Test:** A drug test given to an applicant or employee who is being considered for a safety-sensitive position. The test is also administered when transferring an employee from a non-safety-sensitive position to a safety-sensitive position. Employers are also required to conduct a pre-

employment test when a covered employee or applicant has not performed a safety-sensitive function for 90 consecutive calendar days regardless of the reason, and the employee has not been in the employer's random selection pool during that time. The applicant or employee must be informed of the purpose for the urine collection prior to actual collection.

28. **Random Test:** A drug test administered annually to a predetermined percentage of employees who perform safety-sensitive functions and who are selected on a scientifically defensible random and unannounced basis.
29. **Reasonable Cause Test:** A drug test given to a current employee who performs in a safety-sensitive position, and who is reasonable suspected by one or more trained supervisors or company officials of using a prohibited drug or misusing alcohol.
30. **Refusal to Test:** A covered employee fails to provide a urine sample as required by 49 CFR Part 40, without a valid medical explanation, after they have received notice of the requirement to be tested in accordance with the provisions of this subpart, or engages in conduct that clearly obstructs the testing process. An employee is considered to have refused to test if they fail to do the following: (1) Appear for any test within a reasonable time, as determined by the employer, after being directed to do so by the employer; (2) Remain at the testing site until the testing process is complete; (3) Provide a urine or breath specimen for any drug test required by this part or DOT agency regulations; (4) In the case of a directly observed or monitored collection in a drug test, fails to permit the observation or monitoring of your provision of a specimen; (5) Provide a sufficient amount of urine or breath when directed, and it has been determined, through a required medical evaluation, that there was not adequate medical explanation for the failure; (6) Declines to take a second test the employer or collector has directed them to take; (7) Undergo a medical examination or evaluation, as directed by the MRO as part of the verification process, or as directed by the DER as part of the "shy bladder" or "shy lung" procedures; (8) Cooperate with any part of the testing process (i.e. refuse to empty pockets when so directed by the collector, behave in a confrontational way that disrupts the collection process), if the MRO reports that there is verified adulterated, or substituted test result; or (9) Sign "step 2" of the alcohol testing form.
31. **Return-to-duty Test:** An initial drug test prior to return to duty given to employees performing in safety-sensitive functions who previously tested positive to a drug test and are returning to safety-sensitive positions. A return-to-duty test is also required of an individual who has refused another type of test required by the FTA rule.
32. **Safety-sensitive Function:** Any of the following duties are considered safety-sensitive: (1) Operating a revenue service vehicle, including when not in revenue service; (2) Operating a non-revenue service vehicle, when required to be operated by a holder of a Commercial Driver's License; (3) Controlling dispatch or movement of a revenue service vehicle; (4) Maintaining a revenue service vehicle or equipment used in revenue service, unless the recipient receives section 18 funding and contracts out such services; and (5) Carrying a firearm for security purposes.
33. **Screening Test (or initial test):** In drug testing, an immunoassay screen to eliminate "negative" urine specimens from further analysis. In alcohol testing, an analytic procedure to determine whether an employee may have a prohibited concentration of alcohol in a breath specimen.
34. **Screening Test Technician (STT):** A person who instructs and assists employees in the alcohol testing process and operates an ASD.
35. **Split-Specimen:** In drug testing, a part of the urine specimen that is sent to a primary laboratory and retained unopened, and is transported to a second laboratory in the event that the employee requests that it be tested following a verified positive test of the primary specimen or a verified adulterated or substituted test result.
36. **Stand-Down:** The practice of temporarily removing an employee from the performance of safety-sensitive functions based only on a report from a laboratory to the MRO of a confirmed positive test for a drug or drug metabolite, an adulterated test, or a substituted test, before the MRO has completed verification of the test result.
37. **Substance Abuse Professional (SAP):** A person who evaluates employee who have violated a DOT

drug and alcohol regulation and makes recommendations concerning education, treatment, follow-up testing and aftercare.

38. **Substituted Specimen:** A specimen with creatinine and specific gravity values that are so diminished that they are not consistent with human urine.
39. **Validity Testing:** The evaluation of the specimen to determine if it is consistent with normal human urine. The purpose of the validity testing is to determine whether certain adulterants or foreign substances were added to the urine, if the urine was diluted, or if the specimen was substituted.
40. **Verified Negative (drug test result):** A drug test reviewed by an MRO and determined to have no evidence of prohibited drug use.
41. **Verified Positive (drug test result):** A drug test result reviewed by an MRO and determined to have evidence of prohibited drug use.
42. **Verified Test:** A drug test result or validity testing result from a Department of Health and Human Services certified laboratory that has undergone review and final determination by the MRO.

CHECKLIST FOR REASONABLE SUSPICION TESTING

- 1. Upon the employee's removal from the job site, the supervisor or department head should contact the Human Resource Department and when applicable their Department Head. If the contact cannot be made at that time, the supervisor should proceed to the next step of this procedure and make contact with the Human Resource Department and their Department Head as soon thereafter as possible.
- 2. The supervisor or department head is to then take the employee to the collection site for drug and/or alcohol testing, and must remain at the site until the test is completed.
- 3. If the alcohol test is conducted more than two (2) hours, but less than eight (8) hours, after the supervisor or department head makes the reasonable suspicion determination, the supervisor or department head will complete a report explaining the reason for the delay in conducting the test. If the alcohol test is not conducted within eight (8) hours after the supervisor or department head makes such reasonable suspicion determination, or if the drug test is not conducted within twenty-four (24) hours after such determination, the supervisor or department head will complete a report explaining the reasons why the test was not conducted.
- 4. Once the drug and/or alcohol test has been completed the supervisor or department head is to make arrangements for the employee to be taken home. The employee will not be permitted to drive their own car home at that time. The employee may have a family member or a friend pick them up or the supervisor or department head may take the employee home.
- 5. The employee is to be advised not to report to work. The City will contact the employee once the test results are known (this normally takes 24-48 hours) and a decision has been made as to the employee's status.
- 6. The results of the drug and/or alcohol test will be sent directly to the Human Resources Department. When the results are obtained, the employee's supervisor and department head will meet with the Human Resources Department to determine the appropriate course of action to be taken.
- 7. This is a confidential process. Test results will be held strictly confidential and are not to be discussed or shared with anyone who does not need to know. Likewise, a supervisor or department head must not discuss the suspected reason for a referral or termination with anyone who does not need to know.
- 8. Once the test has been completed and the employee has been taken home, the supervisor or department head must submit a written report to the Human Resources Department outlining in detail what happened and what behavior was observed that let the supervisor or department head to believe the employee was under the influence of alcohol and/or drugs. This report is to be done within 24 hours of testing.
