**Arborist certification is a voluntary program of the International Society of Arboriculture. Unrelated to insurance coverage or licensing, certification is earned by successful completion of a comprehensive exam covering the principles and practice of tree care. Certification is valid for three years. ISA maintains a database of certified arborists at www.isa-arbor.com/findArborist/findarborist.aspx.*

Commercial insecticide treatment in Wisconsin is regulated by WI Department of Agriculture, Trade & Consumer Protection. Commercial pesticide applicators must be certified and licensed. DATCP maintains a database of certified, licensed pesticide applicators at www.kellysolutions.com/WI/Applicators/index.asp.
